Towel Rail

CORBY

ABOUT THIS PRODUCT

The Harrogate Towel Rail is a generous 603mm rail giving towels room to hang, air, and dry fully between uses, while the slender brushed brass bar keeps the bathroom feeling open rather than cluttered. Built from robust 304 stainless steel and simple to install, it fixes to the wall with concealed fittings for an uninterrupted line from end to end. Warm in tone, practical in function, and made to handle the pace of daily housekeeping.
